Introduction

The Children’s Depression Inventory 2nd Edition™: Self-Report Short Form [CDI 2:SR(S)] is a 12-item self-report assessment that allows for rapid screening and monitoring of depressive symptoms in children aged 7–17 years. When used in combination with other information, results from the CDI 2:SR(S) can help to better understand a child and guide intervention decisions. This report provides information about the child and how she compares with other children of a similar age. Please see the *CDI 2 Technical Manual* (published by MHS) for additional interpretive information.

This report is an interpretive aid and should not be provided to parents, teachers, or children or used as the sole basis for clinical diagnosis or intervention. Administrators are cautioned against drawing unsupported interpretations. To obtain a comprehensive view of the child, information from this report should be combined with information gathered from other psychometric tests, interviews, observations, and available records. This report is based on an algorithm that produces the most common interpretations of the scores that have been obtained. Administrators should review the child’s responses to specific items to ensure that these interpretations apply.

Graphical Display of T-score

The following graph displays the CDI 2:SR(S) T-score for Trisha Lang.

Text Summary of Scores for Trisha Lang

Ratings on the CDI 2:SR(S) yielded a T-score of 87 (Raw Score = 12; 90% CI = 79-95), which is ranked at the 99th percentile, and falls within the Very Elevated score range. These results indicate an elevated number of depressive symptoms. This suggests that further evaluation may be appropriate.

Note(s): CI = Confidence Interval.

Item Responses

Trisha Lang provided the following ratings for items on the CDI 2:SR(S).

Item	Rating	Item	Rating	Item	Rating
1.	0	5.	1	9.	0
2.	2	6.	0	10.	2
3.	1	7.	1	11.	1
4.	2	8.	2	12.	0

Response Key:

- 0 = First response is checked
- 1 = Second response is checked
- 2 = Third response is checked
- ? = Omitted item
